What Social Media did you look at?

I looked at my instagram.

Summary:

Social media used to be very important in my life. I prioritize school more now, so my socials have been relatively inactive. Despite this, I was able to find posts of me celebrating a new job, volunteering with Key Club, and acceptance letters to UNT and UD. These both fell in Columns A and B. From Column C, I chose politics because there is a post condemning net neutrality and the upcoming election. This is also where the profanity came in from Column E! Spelling and grammar errors were things like 'u' or 'lol'. Overall, I learned I need to post better and more frequently on social media!

Your score:

6 pts      Your social media presence is t-- keep actively managing your public perception!

3-5 pts      You have some blemishes but also share good news -- minor cleanup needed.

- 0-2 pts While you share good info about yourself, it may be tarnished by some oversharing.
- 1 to -3 pts The bad outweighs the good! Your overall perception is most likely negative. Clean up!
- 4 to -7 pts NOT GOOD. You share way too many items that can harm your employment outlook.
- 8 to -10 pts You share it ALL and it's rarely good. This is definitely working against you. DO OVER!
